

AUCTION RACE QUALIFICATIONS

The definition of an Auction race is "a race restricted to two years old horses which have been sold or bought in by public auction under the hammer after July 1st of the previous year at specified sales as a yearling or as a two-year-old".

(For the avoidance of doubt horses which are unsold having failed to reach their reserves do not qualify, nor do private sales.)

(ii)

The first sale after July 1st of the previous year will govern the price if the horse is sold more than once.

(iii)

In the case of any dispute the official sale return will be used to determine the validity of the sale. Horse Racing Ireland will be the final arbiters of qualification for entry.

(iv)

Any sale conducted outside the sales ring (private sale) will not be considered to qualify the horse for an auction value.
